

90MinuteMarketer

LIVE! Brett McFall reveals the 90-minute presentation system that you can use to sell your product or service **WITHOUT** heavy marketing... chasing prospects... follow-up calls... or having to reduce your prices just to get a customer.

PART 1: Brett McFall will flow-chart his entire presentation-system that **converts up to 21% of prospects into customers**, so that you can leave the event and implement his strategies into the marketing of your own product or service.

PART 2: "Pitch Me!" This is your chance to pitch Brett on your product or service. He will ask you about your current business model and then tell you exactly how you can use what you've just learnt, for your own profit.
