3 Steps To A **Scalable** Coaching Business

More clients... income... and freedom – working less than 10-hours a week

keting
Annemarie Christie It was fantastic Brett! I followed the script. The client was PERFECT - such a good fit. And you know what? I didn't even reduce my price! I stuck with my original plan of \$2997 and she told me that was much better value than the psychologist! Yay! Thank you! Your system seems to be working perfectly:-) 1 h Like Reply 1 not the

Feedback from people clients using my system

Hey there Brett, just a guick note to say THANK YOU so much! I have always worked one on one and had no experience in online marketing / program development but I just knew there was a better way to get my message out. Instead of one to one, I knew I had to work one to many in order to help the most people but just couldn't work out how to make it happen. I had tried seminars but that was still hard work and people are often too busy to come along. And then I found your Fast Client Formula program. Your program showed me exactly, step by step, what I needed to do to take my business online. Including scripts, advertising copy and software advice, I followed your system just exactly as you said and WOOHOO! I now have an online program and a successful Facebook advertising campaign. Your help has been priceless. You have been so approachable and I love your sensible, straight-talking advice. The FB page is fantastic with so many like-minded people and, although I can't make the Q and A sessions live, I absolutely love watching the published replays. I have learned SO MUCH over the last 8 weeks and, just as you promised, it's now up and running. I don't think I have met anyone in your industry who is so willing to share their successful strategies so specifically and who made themselves so available for ongoing help and advice. I can highly recommend your Fast Client Formula program to anyone who is looking to take their one-on-one business and develop an automated, online program so they can reach more people and make a real difference. I'm really looking forward to seeing my program grow over the next few weeks. I'll keep you posted!! THANK YOU 💚
