Brett McFall hi Brett just made 3rd sale for feb so total is now \$19200 , 2 came from the warming tray and email follow ups. So the ad spend will not reflect 100% overall taking averages the ratio I think is \$1 make \$5 odd (pretty happy). So I have spent \$34,000 and made \$175,000 over 17months

Hello Brett McFall, I'm really happy with how things are trundling along. \$116K gross in sales across 7 months (still instalments to come into that total but out of 18 net sales (I lost a couple) 10 of those have paid \$6K upfront. My ad costs are running at \$3K/mth so each total net sale has cost me \$1,166 in ads so net around \$5,478 before other biz costs. Really happy

\$1 makes \$5

Tony is celebrating your special day. April 16 at 8:08pm

I recorded my 1st real strategy call today on a separate mobile. How do I save it and get it to Brett McFall to critique for me. Signed on the client today too, so whoo hooo!!

I want to take a second out of my learning to tell everyone how I landed a \$50K sale last Friday. (Note: I am still studying and have a long way to go). Now Brett I am not sure you remember me but when we spoke at the day long Fast Formula program a little over a week ago in Las Vegas I informed you that I currently run several other companies and your program is my way out to give myself more freedom. However, using your technique of selling the result not a product landed one of my companies a \$50k a year client. By the way we haven't even finished the full product yet.... Thank you and I am still going to use this to obtain my freedom but one of my companies have already benefited. I am a believer. 😊
